PROFILE

Passionate **Front-End Developer** with **2+ years of experience** in building modern, responsive, and user-focused web applications.Proficient in **React.js, JavaScript, HTML5, and CSS3**, with strong knowledge of **Tailwind CSS, Bootstrap, and Git**.Dedicated to writing **clean, maintainable code** and continuously improving **user experience (UX)**.

SKILLS

Languages:
 JavaScript (ES6), HTML5, CSS3

Frameworks & Libraries:
React.js, Redux, React Router, Tailwind CSS, Axios

State Management:
useState, useEffect, Context API, Redux Toolkit

Tools & Platforms:
Firebase (Auth), Git & GitHub, Chrome DevTools, VS Code

API Integration:
REST APIs, DummyJSON, TheMealDB API, FakeAPIStorre

Responsive Design:
Flexbox, Grid, Mobile-first development

COURSES

Mag Camp - Online Front-End Course 🔗   01/2024 – 12/2024
I completed a frontend development course that covered **HTML, CSS, JavaScript**, and **React**.Throughout the course, I built a solid foundation in web development and learned to think like a programmer—focusing on problem-solving, clean code structure, and building dynamic, responsive user interfaces.

Manara Tech – Front-End Development Course 🔗
I completed a frontend development course that introduced me to the **basics of programming** and how the **internet works**.The course provided a deep dive into the frontend field, helping me build a strong understanding of **HTML, CSS, JavaScript**, and modern development practices.It also enhanced my problem-solving skills and prepared me to build responsive, interactive web interfaces.

Tarmeez Academy – Advanced React.js Course 🔗
I completed a React JS course where I learned how to manage state effectively using **React hooks** and the **Context API**.The course also covered **advanced state management with Redux**, handling **asynchronous operations**, and **fetching data using Axios**.I applied these skills by building real-world projects, gaining hands-on experience with **scalable and maintainable React applications**.

PROJECTS

Desserts E-Commerce Platform — React SPA 🔗

  Technologies: React.js, useContext, useState, Tailwind CSS
- A modern e-commerce platform for desserts, built with React (SPA using useContext and useState).
- Styled using Tailwind CSS to ensure a clean and responsive UI.
- Delivers a fast, mobile-friendly shopping experience.
- Features personalized product recommendations for improved user engagement.

Recipe App — React Project 🔗

  Technologies: React.js, React Router, Tailwind CSS, Firebase Auth, TheMealDB API
- Developed a responsive recipe browsing app with real-time data fetching from TheMealDB API.
- Implemented dynamic routing, search, and detailed meal pages.
- Added a Favorites system using Context API + localStorage.
- Integrated Firebase for user authentication (signup, login, protected routes).
- Built with Tailwind CSS and ensured mobile responsiveness.

Modern E-Commerce Platform — React + Redux + Firebase 🔗

  Technologies: React.js, Redux, Firebase Auth, Tailwind CSS, DummyJSON API
- A modern e-commerce platform built with React, Redux, Firebase, and Tailwind CSS.
- API-driven architecture using a fake API store (DummyJSON) for flexibility and scalability.
- Features personalized product recommendations, secure authentication using Firebase, and a seamless checkout experience.
- Designed to provide a responsive and smooth user journey across all devices.
